

TechDivision Global Solution Partner Programme

About TECHDIVISION

TechDivision GmbH was one of the first Magento Enterprise Partners worldwide and has since grown into a leading service provider for consulting, implementation and marketing of digitization projects. We are an Adobe Gold Partner, long-time supporter of the Neos CMS-Project, Atlassian and Akeneo Partners, as well as a Google Premier Partner completing our portfolio.

While we specialize in leading web technologies, we also offer comprehensive consulting services for the digitization of existing business processes. Our highly experienced and certified team of in-house consultants brings the latest knowledge in the application of Lean, Agile and Cloud technologies to meet even the toughest challenges.

Internationally renowned companies such as Volkswagen, Familotel, myTheresa, EGLO or Adobe rely on our know-how and experience. TechDivision currently has four offices in Rosenheim/Kolbermoor, Munich, Leipzig and Hamburg home to more than 130 employees.

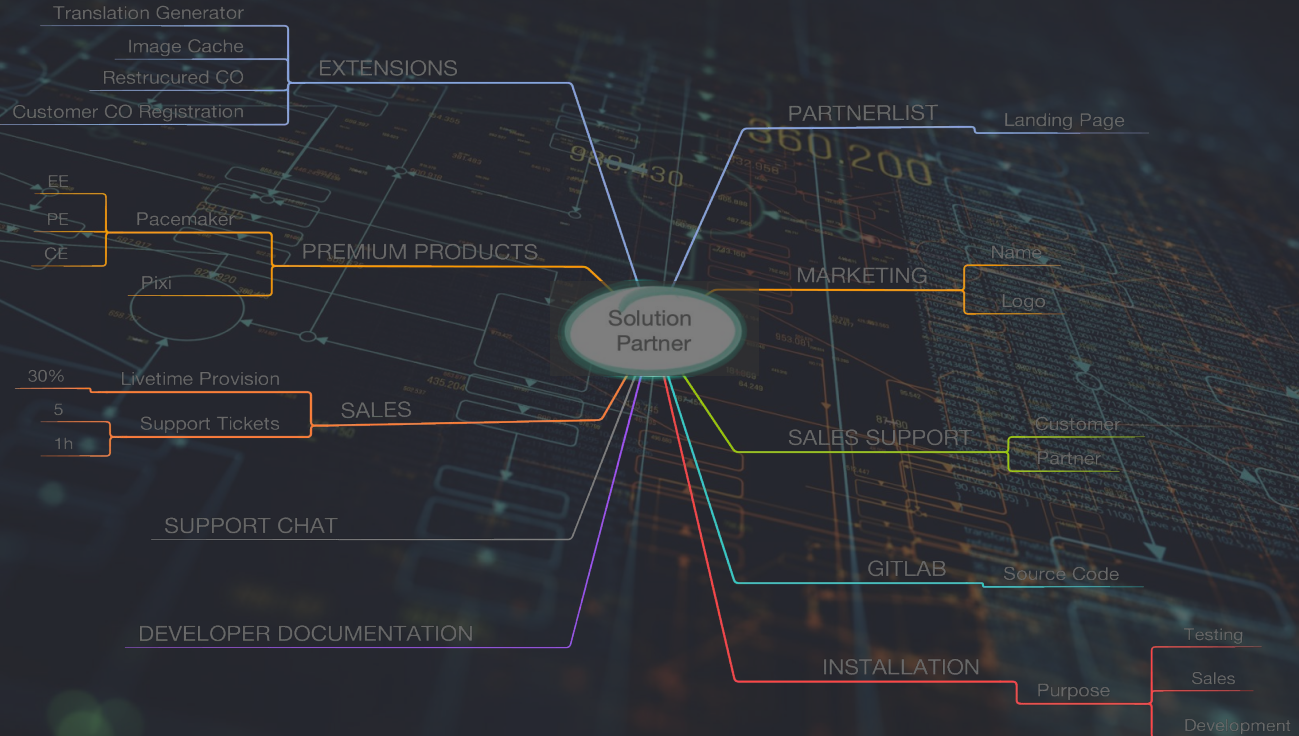

Who would we like invite to our TECHDIVISION Solution Partner Programme?

Our offer is meant for those web agencies or software/IT companies:

- that frequently implement Magento-based eCommerce solutions for their customers,
- and want to use Pacemaker or other Magento extensions offered by TechDivision.

For you, we make our know-how available via our Magento modules. Their functional focus is especially on the topics of process modelling and the integration of third-party systems. In our many years of experience, we have learned that these areas often contain the biggest complexity. To meet these we provide solutions that solve some of the most challenging and central of the frequently recurring problems out-of-the-box.
